Memphis, Tenn., July 11.—Bobby Jones, Atlanta, Tuesday won low medal score in tournament for the amateur championship of the Western Golf association with 139 for the 25 holes. This is said to be the lowest card ever recorded in a Western association qualifying round.

Jones negotiated the 15 holes in 70, just one stroke over his record breaking play of Monday. Bockenkamp, who had 75 for the first 10 holes, took 75 Tuesday, while Evans, with a score of 72 to work on, took 74.

Griffin And Payo Work Hard Getting Ready For Contest

DICK GRIFFIN did his first real hard work Wednesday afternoon when he stepped four rounds with two clever, hard hitting boys whom trainer Jack Taylor had managed to round up to box with his hard hitting little charges.

Kid Payo did not train. Due to a sprained knee the El Paso feather star left the ring to his rival saying that he would lay off for a few hours and give the tendon a chance to get back into its original place. He does not believe that it will bother him in the least when he faces Griffin at the Port Hills punch bowl on next Monday night but is taking no chances. Payo was out Wednesday but did only light work. This caused a rumor that the scrappy "Kid" was being trained privately for the contest by his brother, Gene, and that the two had been seen mixing it hard in the back yard of their home on South Stanton street.

Griffin worked like the little star that he is showing the fans something new in the line of cleverness. He is quick as a flash and has great speed and his hard, in Payo he will be meeting a slugger of the first water and there is expected to be some interesting complications when the exponents of the two different styles clash in the ring.

Neither Taking Chances.
Neither is taking a chance on the other and each will be in the best of condition when time is called. Payo has been boxing with "Brother Gene" who is greased lightning himself, while Griffin has lots of speed and hitting ability which he is getting into shape.

Babe Cabell and Floyd Briggs are working at the 24th camp at Columbus in preparation for their contest as the semi-windup. Cabell readily agreed to the terms of matchmaker Erwin but Briggs held out for a short time although he has no grounds upon which to do so. The fans recognize Cabell as the leader of the border warriors and if Briggs wishes to dictate terms he must be in a position to do so.

GRENADE MAKES RECORD.
Tolosa, O., July 11.—A new world's record for three year old pacing geldings was hung up at the Port Miami track Tuesday, when Rifle Grenade

carrying the colors of the Lou McDonald stable, paced the first mile in 2:04 1/4, cutting a quarter second off the record held by Direct The Work, made at Lexington two years ago.

Dudley, of Youngstown, O., and driven by Lou McDonald, won the Tecumseh 2:12 trot, \$5000 stake.

In going away, the first head driver, Hyde, who was driving Eliza Dillon, was thrown in a collision and slightly hurt about the head. Calgary Early won the 2:07 pace in straight heats, while Charles E. Red captured the 2:07 trot.

Rifle Grenade won the three year old pace in one, two, three order.

Tubes that are Worth Insisting Upon

The wall of the Goodyear Heavy Tourist Tube is thick, powerful and densely knit—as nearly absolutely impervious to air as it is possible for rubber to be.

It is made not of one sheet of heavy rubber merely, but of many thin sheets built up layer-upon-layer and vulcanized inseparably together, a construction which prevents porosity and imperfection.

The cross-grain texture of this remarkable construction protects the tube against ripping, and makes its body leakless, elastic and virile.

Even the valve-patches are vulcanized in, instead of merely being stuck on, and each tube is tested for twenty-four hours before leaving the factory.

Built to be relatively as superior to ordinary tubes as Goodyear Cord Tires are to ordinary tires, Goodyear Heavy Tourist Tubes are well worth insisting upon.

Their initial cost is no more than the price you are asked for tubes of less merit—why risk costly casings when such sure protection is available?
